

Financial Services Management

3PL Pharmaceutical Financial Services Management

The high caliber of our employees and the sophistication of our technology are important keys to our success at WDSrx. Every new transaction handled in our facilities adds to our experience and knowledge.

Our clients demand the highest levels of service and support and we earn their confidence every day. At times, clients request professional services to help them examine their current business practices or to explore new commercial opportunities:

WDSrx provides a wealth of financial services that may be performed on behalf of clients if desired.

EXPERIENCED TEAM

Our management team is comprised of highly competent industry executives with extensive experience in financial procedures and controls. The financial infrastructure at WDSrx enables partial or full-scale handling of Invoicing and Cash Management, Receivables Management and Chargeback Processing. Our technology platform enables real-time customized reporting and invoicing from a secure client web portal.

MULTIPLE SERVICES – SINGLE POINT OF CONTACT

Many clients utilize our project management team to coordinate complimentary services being performed by WDSrx that may include filling and bottling in our Packaging and Labeling department as well as storage and fulfillment of the finished products in our 3PL pharmaceutical Warehousing and Distribution department.

WDSrx Financial Services offer scalable, transparent solutions to save costs and increase revenue.

Please allow us to [contact](#) you to discuss your financial services requirements.
