

Operations

Dependable. Precise. Consistent. Technology drives efficiency to assure timely delivery of pharmaceutical drug products.

WDSrx applies extensive experience to current technology that reduces cost and increases efficiency. Operations executives appreciate the combination of personalized service and advanced systems that differentiate WDSrx's 3PL pharmaceutical distribution services including:

Warehousing and Distribution – *Confidence Beyond Compliance.* Promoting the safe and efficient delivery of pharmaceutical drug products to benefit patient health.

Reverse Logistics Disposition – *Recalls. Returns. Removal.* Environmentally responsible procedures to reduce product deviation.

Transportation Management – *FTL. LTL. ASAP.* Selecting optimal solutions for safe, on-time delivery.

Product Packaging and Labeling – *From Bulk To Bottle.* Modern equipment enables a full range of DSCSA-compliant solutions for filling, labeling and packaging pills and capsules.

E-Commerce Solutions – *Omnichannel. Multiple benefits.* As consumer expectations influence traditional delivery models, new approaches highlight online ordering, fulfillment, returns and customer service.

Financial Services – *Technology. Security. Convenience.* Reduce back-office functions with diversified financial services management to improve cash flow and streamline operations.

Facilities and Equipment – *Multiple DCs. 50 States.* Modern equipment and advantageous locations speed delivery around the country.
